

NB11L CHARGER

A SIMPLE, SLOW, BUT WORKING CHARGER FOR THE CANON NB-11L CAMERA BATTERY

MEET THE CHARGER™: ONE DEV BOARD, ONE DEAD PROJECT'S PCB, ONE RUBBER BAND, AND A CAMERA BATTERY THAT FINALLY GETS TO CHARGE AGAIN. MY FRIEND'S CAMERA CAME WITH NO CHARGER, SO I GAVE THE SEED XIAO NRF A NEW JOB, CHARGING THE NB-11L STRAIGHT OFF ITS BUILT-IN LIPO CIRCUIT. SAME 3.7V CHEMISTRY, NO EXTRA PARTS NEEDED. IT'S SLOW. IT'S CHONKY™. IT WORKS.
